THE DOCTOR PATIENT CHALLENGE: N\$250 incl. VAT per person

(This is an all round activity which tackles many aspects at the same time within your company. Delegation, on the spot decision making, trust, team work and relationship building)

The group is divided into 2 teams that will compete against each other in the 'Doctor challenge'. Nominate a 'surgen' and a patient.

- **Challenge 1: Assemble the medical team;** As a team you have to walk to the next challenge on planks of wood by steering with a piece of rope. The team that manages to get there first scores the points.
- **Challenge 2: Blinding symptoms;** each member of the team will have a minute to throw a ball and try to knock as many cans over as possible whilst being blindfolded. Points are awarded for each can that falls to the floor.
- **Challenge 3: Transplant transportation;** 3 team members are needed for this. The first and last player starts at the same time. Player 1 has to find the 'eye' in a bowl of flour with their mouth and nose and at the same time player 3 will start scooping sand from one bucket to the other with a measuring cup in their mouth. Once the 'eye' is found it needs to be transported with a table spoon over a distance by player 2 to reach player 3's station. Depending if player 3 has been able to scoop enough sand in the bowl, the egg (eye) needs to be dropped down a pvc pipe and safely landed on the sand without breaking.

- **Challenge 4: O.R transportation;** with the materials in front of you – construct a stretcher or something to transport your patient to the operating room. Rule: No one may physically touch the patient and the patient must be elevated somehow.
- **Challenge 5: Prep your surgeon.** Help your team mate get into his scrubs by wrapping him/her from head to toe in toilet paper before the surgery.
- **Challenge 6: Transport the patient.** Transport the patient on your hand made stretcher to the surgeon. Once in the O.R the game is finished.
